

Press Release

April 25, 2016

April 15, 2016 – Richard C. Bost, P.E., P.G., has been elected President of I2M Associates, LLC and will also be serving as CEO for all operations ([more](#)). He subsequently re-appointed **Michael D. Campbell**, P.G., P.H., as Executive Vice President and Chief Geologist and Principal Hydrogeologist in I2M Associates, LLC to provide management of operations and project oversight ([more](#)).

Lori K. Magyar was appointed as COO and Vice President – Environmental Planning & Permitting. She has served as an environmental business consultant with experience in a variety of multidisciplinary environmental, social and health programs in the U.S. and overseas for ARCADIS, ERM, Dames & More/URS, and other companies over the past 25 years ([more](#)).

Mr. Bost also announced in Houston today that Reardon Environmental, Inc will be developing a teaming agreement with I2M Associates, LLC. ([more](#)). Reardon's primary stockholder **Estelle Antoinette Liebert** was also appointed as CFO and Vice President – Business Operations & Legal. Over the years with Reardon, she has managed the company's finances, administration, human resources, and contracts in the capacity of President (as a woman-owned business). She previously served as a paralegal for a number of prominent Houston law firms ([more](#)).

Reardon's Remediation Manager, **Thomas R. Liebert**, P.E., was appointed as Chief Engineer and Vice President – Remediation Services. Mr. Liebert is well known in the environmental remediation and geotechnical engineering industry in the Houston area having been employed by the City of Houston, Law Engineering, Inc. and in the DuPont Environmental Group as a senior engineer and manager of engineering operations ([more](#)). Over the years, Reardon operations have delivered safe and effective in situ chemical oxidation (ISCO) environmental remediation technology through high- and low-pressure injection and associated technology for major environmental engineering consultants and industrial clients around the U.S. ([more](#)).

On related matters, Mr. Bost indicated that I2M is considering additional acquisitions of small firms and associated personnel to build out I2M

capabilities to take on a variety of projects beyond those undertaken over the past 6 years since I2M's formation in 2010.

Mr. Bost recently presented a paper on Health, Safety and Environmental Update on H₂S and CO₂ Injection and Sequestration at the *ShaleTech Canada Conference* ([more](#)) in Calgary, Alberta, Canada April 18 – 20, 2016. PDF of slides ([more](#))

April 11, 2016 – I2M CEO and President, **Jeffrey D. King**, P.G., has announced in Seattle this morning that he is retiring and has sold his interests in I2M Associates, LLC to I2M Associate, **Richard C. Bost**, P.E., P.G. in Houston, Texas. Mr. Bost retired a few years ago as a Senior Partner and Officer of Environmental Resources Management (ERM) and played a significant role in ERM's expansion internationally over the past 25 years, becoming the world's largest privately held environmental consultancy.

Bost is a graduate of Rice University in environmental engineering (and was named (Rice University *Outstanding Engineering Alum of the Year* in 2002). He is well known in the environmental and geotechnical engineering industry in the U.S. ([more](#)). Mr. Bost has assumed a leadership role in I2M Associates, LLC effective today, and is contemplating a significant expansion of I2M activities into large environmental planning and remediation projects and related fields throughout the U.S. and in international due-diligence projects, along with maintaining current litigation support in the U.S., and mineral and mining assessments in various sectors of the world.
