

I2M Vice President - Operations

The I2M Corporation

Henry M. Wise, P.G., C.P.G.

Houston, Texas

Mining, Geological & Environmental Consultant

Email: hmwise@yahoo.com | Cell: 713-569-7814

Henry Wise is a graduate of Boston University with a Bachelor's degree in geology and a Master's degree in geology from the University of Texas at El Paso. He has more than 45 years of professional experience in geological and environmental remediation. This includes substantial in exploration and production of uranium in Texas and in ground-water assessment and remediation projects in Texas and the eastern United States.

Mr. Wise worked for US Steel exploring for South Texas roll-front uranium deposits and production of South Texas roll-front uranium deposits. He was responsible for developing the Pawlik mine for US Steel and periodically worked on all six US Steel South Texas uranium mines.

Cambridge Royalty Company employed Mr. Wise to explore for uranium in Texas based on a show of uranium in an oil well they owned. Mr. Wise identified a deep uranium deposit of significance in the area before Cambridge Royalty ceased uranium exploration and development due to a depression in the uranium market. Cambridge Royalty was eventually purchased by Global Natural Resources, who put zero value on their uranium interests.

After Cambridge Royalty, Mr. Wise served a number of environmental companies, including Parsons Engineering Science and Republic Services. Mr. Wise was responsible for site assessments and remediation at these companies and has extensive experience with interfacing with State and Federal environmental agencies, including the Texas Commission on Environmental Quality (TCEQ) and Environmental Protection Agency (EPA). Mr. Wise has worked on RCRA, Superfund, and underground storage tank sites for many clients.

In addition, while with Republic Services, Mr. Wise was involved with many environmental emergency responses for the TCEQ, several of which had national media exposure. These responses included air monitoring and surface water, groundwater and soil assessments and remediation.

Mr. Wise is a Licensed Professional Geologist in Texas and is a Certified Professional Geologist by the American Institute of Professional Geologists (AIPG). He is currently serving as [President of the AIPG Texas Section](#). As a long-time member of the Houston Geological Society (HGS), he currently is Chairman of the Government Affairs Committee and publishes the semi-weekly blog "[The Wise Report](#)" on the HGS website. He was a founding member of the Energy Minerals Division of AAPG in 1977 and for many years served as Vice-Chair (Industry) of the Uranium (Nuclear and Rare Earth Minerals) Committee of the AAPG-[Energy Minerals Division](#). On May 12, 2011, Governor Perry commissioned Henry Wise as an Admiral in the Texas Navy for his outstanding efforts over the years on behalf of the geological community in Texas. Governor Perry's Proclamation ([here](#)).

Mr. Wise serves as the Vice President of Operations for the I2M Corporation in Katy, Texas. He has made many presentations (with Michael D. Campbell, P.G., P.H.), one of which to a packed house in 2013 HGS Dinner Meetings of the Engineering and Environmental Group. The presentation was entitled: **"Hydrogeologic Risks in the Groundwater Supply of Harris County, Texas: Radioactive Constituents, Natural Gas, & Growth Faults"**. Abstract and Biographies of the speakers ([link](#)).

Mr. Wise also served as co-author with Michael Campbell of Chapter 9 in the AAPG-EMD Memoir 101, entitled: *Energy Resources for Human Settlement in the Solar System and Earth's Future in Space*. For the Table of Contents and Book Preface, see ([here](#)). Members of the Energy Mineral Division's Uranium (Nuclear and Rare Earth Minerals) Committee and of I2M Associates, LLC contributed the final Chapter 9, entitled: **"Nuclear Power and Associated Environmental Issues in the Transition of Exploration and Mining on Earth to the Development of Off-World Natural Resources in the 21st Century ([PDF](#))."**

For full list of publications by Mr. Wise, see ([more](#)).
